

2010 SAXONWOLD PRINTING

R550.00

Like A Professional

Your great photographs deserve to be printed, but are you frustrated by getting disappointing results that don't do your images justice?

Owning a good printer doesn't necessarily mean getting great prints. Seeing your photographs printed accurately is very rewarding, but how do you make sense of the multitude of settings and options that all influence the appearance of your final printed result? You need to make sure that all the settings and options are set correctly for the paper / media that you are printing onto.

Join us for a hands-on session using Epson inkjet printers where we will demystify the printing process for you, taking you through all the important steps that are critical to obtain a great print. Our experienced lecturers will walk you step-by-step through the printing process to produce great results every time you print.

This three hour practical workshop is presented either on a weekday evening or a weekday / Saturday morning.

LESSON 1

Monitor calibration
Understanding colour spaces and colour conversion
Preparing your image for printing
Media selection to suit your images
Printer settings
Soft proofing
