

CODP – SCHOLAR / STUDENT HOLIDAY COURSE

Before you even blink, it'll be school holiday time again! With a month long school holiday we at CODP don't want your children getting bored, so we've organised 2 daytime photography courses to keep them entertained.

These are both educational and entertaining. If your children are interested in photography and own a camera they could really benefit from one of our courses. We have redesigned our most popular entry level courses to be fun, stimulating and packed with useful tips, tricks and insights that will take their photography to a new level. We will open up the wonderful world of photography to them so they can take better, more creative photographs and a pastime may turn into a lifelong passion.

Courses will be presented in shorter sessions and interspersed with hands-on, fun exercises to keep interest up and develop practical skills.

The **FUNDAMENTALS OF DIGITAL PHOTOGRAPHY COURSE** is aimed at teens that own a SLR camera or a compact camera that can take photos in manual mode. The course will enable them to:

- Master ISO, aperture and shutter speed to get great exposure
- Take advantage of little known camera settings to improve the quality of their photographs
- See the colour, contrast and intensity of light like a camera does
- Work with depth of field and freezing or blurring movement
- Get the most out of camera flash
- Use guidelines for better composition
- Use practical techniques and the camera histogram to fine-tune exposure

The course will be held on five consecutive mornings from 08:00 to 11:00 and will have a theoretical class with practical exercise supervised by our lecturers. The course will cost R2850 per student, with a 50% deposit due when the course is booked.

DATE: This course will be held from **Mon 13th - Fri 17th December 2010** at the Saxonwold Campus. To book for the course please contact the College of Digital Photography on 086 11 PHOTO or photo@codp.co.za.

The **DISCOVER DIGITAL PHOTOGRAPHY COURSE** is aimed at tweens and young teens with a compact camera. They will learn to:

- Set up their cameras for best quality photographs
- Know flash and when to use it or not use it
- Understand and use light
- Taking photographs in difficult light situations
- Using camera settings for creative colour
- Creatively photograph different subjects like:
 - People
 - Indoor photography, parties and events
 - Outdoor and landscape photography
 - Close-ups and macro
 - Subjects in low-light
 - Holidays

Courses will be held over three mornings on a Monday, Wednesday and Friday from 08:00 to 11:00.

There will be short lectures, practical exercises and supervised group work. The course will cost R1250 per student, with a 50% deposit due when the course is booked.

DATE: This course will be held on **Mon 13th, Tue 14th and Wed 15th December 2010** at the Saxonwold Campus
To book for the course please contact the College of Digital Photography on 086 11 PHOTO or photo@codp.co.za.
