## Photography

We live in a beautiful country and indeed a beautiful world, with many incredible subjects just begging to be photographed.

This "Outdoor Photography" course helps you to create great landscape, wildlife, nature and travel images. You are taught techniques used by professionals as well as some handy "tips and tricks." These help you plan, prepare and capture your favourite subjects ensuring you have many successful days away.

This course is presented on one evening a week over three consecutive weeks. You are not required to complete any assignments on the course, but rather will have the opportunity in your free time afterwards to complete your assignments. There is a get together a couple of months after completion of the course to view the results of your hard work.
